# Workshops for Lawyers

## Social Media Workshops for Lawyers

After many questions from my fellow lawyers about Facebook, Instagram, LinkedIn, Twitter and Youtube I have put together a dedicated 1 day workshop on social media for lawyers.

Over the past 4 years I have grown a niche social media community of over 10,000 people across multiple platforms and credit social media as being one of the biggest drivers of new work to my law practice.

In this 1 day Social media workshop I will cover-

- Creating the right social media strategy for you;
- How you can use social media to grow your profile and increase client relationships;
- The basics when it comes to using the central platforms including Facebook, Instagram, LinkedIn, Twitter and Youtube; and
- The 'do's and don't's'.

I host at least 3 Social Media Workshops throughout the year all over the country.

## Introductory and Advanced Collaborative Practice Training

Collaborative Practice is now a widely used form of dispute resolution for separating families. With the current court delays and market focus on alternative, affordable solutions for separating families, Collaborative Practice is a much-needed skill for any Family Law professional and is now also being used in Commercial and Estate disputes as well. These courses are available to Psychologists and financial advisors as well.

The Collaborative Model is an insightful, challenging and hugely rewarding experience for practitioners and develop the skills necessary to work confidently in this area is some of the most fulfilling training available.

Collaborative Practice Training is marketed at lawyers looking to deepen their skills in conflict resolution no matter your area of practice. A two day introductory and one day advanced course is offered several times a year and all over Australia.
